

## Journal of Rehabilitation Research and Development

### *Guidelines for Contributors (Abbreviated Version)*

---

1. When submitting a manuscript, include three copies of the original either typed or computer-printed on 8 1/2-in. × 11-in. paper (double-spaced throughout including title, abstract, key words, text, references, acknowledgments, tables, and captions for figures).
2. One of three copies must be blinded for peer review, with all author information removed from the title page. Remove any acknowledgments from the blinded copy. All acknowledgments should be on a separate page following the reference. The other two copies should have a title page containing the title and complete author information.
3. A paragraph describing the clinical relevance for the veteran is required to be submitted with each manuscript to be published. This plain-text, unformatted summary should be separate from the manuscript. The clinical relevance should include these four subject headers: Purpose of the work, subjects/procedures, results, and relevance to the veteran population.
4. Include a 3 1/2-in. disk, CD, or Zip<sup>®</sup> disk containing a copy of the original version of the manuscript in a DOS or PC Windows-based software program. Label disks or CD appropriately. **Apple-formatted disks are unacceptable.**
5. Send one set of camera-ready hard-copy figures (photos, illustrations, graphics). Also send electronic files (in .tif or .jpg format) for all figures. **PowerPoint<sup>®</sup> images are unacceptable for print production.** If images are created in PowerPoint<sup>®</sup>, they must be printed directly from PowerPoint<sup>®</sup> onto high-quality smooth bright-white #32 paper. To provide a sharp image, scan at 400+ resolution as a .jpg file. If the image is saved as a .jpg directly from PowerPoint<sup>®</sup>, the quality will be poor, therefore unacceptable.
6. Include a cover letter stating the name, address, phone number, fax number, and email address of the corresponding author.
7. Send the above material to the *Journal* editor.
8. For more detailed information, the complete *Guidelines for Contributors* is published on-line: [www.vard.org/guid/guidelns.htm](http://www.vard.org/guid/guidelns.htm).
9. Send all manuscripts, correspondence, and inquiries to:
